

MANY POLICEMEN GUARD THE COURT

Many Precautions Taken at Ruef Trial in San Francisco.

HE ASKS CHANGE OF VENUE

Presents an Affidavit Saying He Cannot Secure a Fair Trial.

SAN FRANCISCO, November 16.—The trial of Abraham Ruef, on the charge of bribery, the progress of which was interrupted last Friday by the attempted assassination of Assistant District Attorney Francis J. Heney, was resumed to-day. By the interposition of affidavits setting forth that it would be impossible to secure a fair and impartial trial in the present state of public opinion, the defense asked a continuance until to-morrow, at which time the prosecution will file counter-affidavits. Ruef was taken back to the county jail.

Never before in the history of this city had such extensive police precautions been taken to safeguard a court of justice as when Ruef was brought to the bar of Judge Lawler's court to-day.

Ten policemen on foot and six mounted men were on guard in front of the court room, and the streets for a block on either side of the building were patrolled by uniformed police. Every person entering the building was closely scrutinized. In the corridors were stationed six policemen, and inside the court room a dozen detectives were placed.

Abraham Ruef was the first of those directly connected in the trial to arrive, with five policemen and five deputy sheriffs riding inside the van with him, and escorted by five mounted policemen. Ruef was calm, but pale, and the effects of the past few nights' excitement was plainly visible on his face.

O'Garra Replaces Heney.

Later Assistant District Attorney John O'Garra, who has been Mr. Heney's assistant in recent trials, came in and took the place of Heney, where he was shot on Friday.

When Judge Lawler called Ruef's case, Assistant District Attorney O'Garra announced that Messrs. Sullivan, Johnson and Dwyer would assist the prosecution, and asked that their names be entered upon the record. Thomas H. Dozier announced that the defense had motion to make, based upon some affidavits in which he said:

"Upon this affidavit, sworn to by Abraham Ruef, I hereby make appeal for change of venue from this court to some other court of co-ordinate jurisdiction in the State of California, where the conditions existing in this court do not obtain."

Dozier then read affidavits made by himself and Attorney Ach, setting forth that counsel for the defense were receiving communications by mail and telephone threatening their lives if they continued in the defense of Ruef, and that as a result of conditions obtaining it was impossible to secure a fair and impartial trial in this city. Affixed to each affidavit were copies of papers giving accounts of the shooting of Heney and the subsequent arrest of Ruef, and the mass-meetings as additional evidence of the inflamed state of the public mind.

Further Proceedings.

Attorney Ach stated that if the motion for a change of venue was denied he would ask for a continuance of thirty days, and if that was denied he would ask for the dismissal of the case, on the ground that the members of the jury, who were called by Friday's episode in court, were prejudiced by the publicity given to the case.

The affidavit required about twenty minutes for reading. It concludes as follows: "Affiant is informed and believes that in the city of San Francisco, a force and mob, bias and prejudice against him, and that there probably will occur during his journey to and from the courtroom scenes of violence and turbulence calculated to prevent a fair trial, and that the lives of his counsel are in danger, and that they are not in a proper frame of mind to give his case the attention it deserves."

The affidavit is sworn to by Ruef himself. Upon this conclusion Dozier, reading supplementary affidavits relating to the case, asked that he be allowed to call witnesses who have transpired at various mass-meetings held in the city.

OPERATION PERFORMED

Attorney Heney stood in the Well, and Made a Good Italy.

SAN FRANCISCO, CAL., November 16.—Special Prosecutor Francis J. Heney, who was shot by Morris Haas in Judge Lawler's courtroom on Friday during the trial of Abraham Ruef on one of the numerous charges against him with bribery, underwent an operation to-day for the removal of the bullet, which had lodged in the left lower maxillary. The operation is said to have been successful in every way, and to-night it is stated that Mr. Heney's condition is satisfactory, with no signs of complications.

An extraordinary photograph taken to-day located the position of the bullet so clearly that the doctors did not hesitate to attempt its removal.

The bullet, which entered below the upper jawbone on the right side of the head, passing downward through the mouth, was found lodged in the muscles of the lower maxillary. Its removal required the utmost skill, as it lay close to the important blood vessels in that portion of the face. Mr. Heney stood the operation well, rattled from the effects of the anesthetic quickly and without sign of weakness or shock.

The request over the body of Morris Haas, Mr. Heney's assailant, who committed suicide at the County Jail Saturday night, will be held to-morrow.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a hollow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ has no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whiskey or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

A VERY VALUABLE WORK FOR PEOPLE

President Roosevelt Writes of the Commission Investigating Country Life.

NAMES TWO MORE MEMBERS

Asks Farmers to Meet Soon and Will Report to Congress.

WASHINGTON, D. C., November 16.—Thorough co-operation of farmers and professional interests connected with them throughout the United States in the work of the Country Life Commission is urged, and the appointment of two additional members of the commission, Charles S. Barrett, of Union City, Ga., and William A. Beard, of Sacramento, Cal., is announced in a letter of President Roosevelt to Chairman Bailey, of the commission. The letter and the reply of Mr. Bailey, welcoming the President's suggestions, were made public to-day. The President's letter follows, dated November 9th:

"My Dear Professor Bailey—I wish at the outset cordially to thank you for the way in which you have taken hold of the work you are doing. No more valuable work for the people of this country can be done, because no more valuable work for the farmers of this country can be done."

"Now, of course, the whole success of the work depends upon the attitude of the people of the open country, of the farming people of the United States. If they feel an awakening interest in what you are doing, they should manifest it. Moreover, it is essential that the farmers, the men who actually live on the soil, should feel a sense of responsibility in the commission; should feel that you gentlemen in very truth represent them and are responsive to their desires and wishes, no less than to their needs. It seems to me, therefore, that it would be wise to try to get into the closest possible touch with the farmers of the country and to find out from them, so far as you are able, just what they regard as being the subjects with which it is most important that you should deal. This you are already doing by sending out a circular of questions, and by holding meetings in different parts of the United States, to perhaps something more can be done."

Wants Farmers to Meet.

"I accordingly suggest that you ask the farmers to come together in the several school districts of the country, to advise definitely upon the subjects which I have suggested. I suggest that you meet not later than Saturday, December 5th, and you will, of course, use your own judgment whether to summon the meeting by circular or otherwise."

"Throughout this letter where I use the word 'farmers,' I mean also to include all those who live in the open country and are intimately connected with those who do the farm work—mechanics, country doctors, school teachers, country preachers, country editors of country papers, and country men and women whose life work is done either on the farm or in connection with the life work of those who are on the farm."

Suggests Topics.

"You know, I think, how I value topics you will suggest. Now I want it to include such topics as: The efficiency of the rural schools; farmers' organizations; the question of farm labor; the need of good roads; improved postal facilities; sanitary conditions on the farm."

"Your purpose is rather to investigate the farmer's life; to inquire into technical methods of farming. You are simply trying to ascertain what are the general economic, social, educational and sanitary conditions of the open country, and what it is doing. The farmers themselves can do this for themselves, and how the government can help them. To this end your special desire is to get in touch with and represent the farmers themselves. The commission now consists of five members. I shall ask two more to be added to serve upon it, so that the full membership will be as follows:

Professor L. H. Bailey, New York State College of Agriculture, Ithaca, N. Y.; Chairman, Henry Wallace, Wallace's Farmer, Des Moines, Iowa; K. V. L. Butterfield, president Massachusetts Agricultural College, Amherst, Mass.; Gifford Pinchot, United States Forest Service, Washington, D. C.; Walter E. Dill, of the University of California, Berkeley, Cal.; and Charles S. Barrett, Union City, Ga., and William A. Beard, Sacramento, Cal."

"Again thanking you, and with all good wishes for your success in this great and important work, believe me, very sincerely yours,

(Signed) "THEODORE ROOSEVELT."

Mr. Bailey's reply to the President follows:

"The Commission on Country Life is much gratified that its efforts have met with your approval. The public interest in the subject seems to be widespread and to be constantly growing, as the purpose of the work becomes known. Discussion of the inquiry that the commission is making for the people themselves is the best means of arriving at a clear understanding of what the country life problems really are. The commission gladly welcomes your suggestion that all country people come together to confer their views and suggestions, and thereby requests all persons specially interested in the welfare of the open country to meet in their usual gathering places on or before December 5th to discuss the subject you suggest or any of the questions on which the commission is making inquiry."

"Copies of the questionnaire are secured by writing to the Commission on Country Life, Washington, D. C. The commission desires that, so far as possible, a general summary or estimate of the discussions in all the meetings may be compiled and sent to the President in Washington, so that it may have the benefit of all suggestions in preparing its report."

HITCH IN PROCEEDINGS.

Princess De Sagan, Formerly Miss Anna Gould, Still in Court.

PARIS, November 16.—The attorneys for the Princess Helle De Sagan, who was Miss Anna Gould, sister of John D. Rockefeller, are endeavoring to get the divorce proceedings published in a local newspaper.

Relief from CONSTIPATION

Buy a bottle of the Natural HUNYADI JANOS WATER to-day—and drink 1/4 a glass before breakfast.

Each bottle contains several doses—keep the balance and have it always ready for use.

No griping—no purging—but just gentle RELIEF within an hour's time.

Bottled in Hungary—used everywhere—ask distinctly for

Hunyadi János

At all grocers. In 1 and 2-lb. cans

to-day that the princess had actually entered suit for separation from the prince. It was said the princess contemplated this step in the belief that it would increase her chances of success in her pending suit for custody of her three children, the offspring of her former marriage with Count Boni De Castellane.

It is understood that a hitch has developed in the negotiations looking for a settlement of the custody suit. The case probably will come up for hearing next Wednesday.

JAPAN TO CONSULT WITH ALL POWERS

(Continued From First Page.)

wild with excitement, and toward the close of the day the police intervened and drove them back.

As yet the cause of the death in the case of the Emperor and Dowager Empress has not been made public. There is reasonable evidence, however, to show that death in either case was the result of anything other than natural causes.

Reformers Are Answering.

The government entertains fears of the Kih-Ning-Tang reformers, who are reported to be assembling with a view to taking advantage of the present disturbed condition of the country. There are reports of disaffection among the adherents of half a dozen rival candidates for the throne, and to the minds of the foreigners, the government itself is disaffected.

An imperial order was issued to-day in the name of Dowager Empress Yohona, expelling all palace visitors, which means the clearing away of the masses who assembled during the period Their Majesties were believed to be dying, and who have remained within and near the palace since ever since. A conference of the diplomatic representatives was held to-day, and it was decided to ask the regent to name a convenient time for the presentation of the condolences of the foreign governments. It is thought that the situation in the empire was the chief subject under consideration. Tonight a large number of gendarmes were withdrawn, and the streets presented a deserted appearance.

A Remarkable Woman.

PASADENA, CAL., November 16.—"I look upon the death of the Dowager Empress of China as a personal loss," said Mrs. E. H. Conger, widow of the former minister to China. E. H. Conger, to-day. "When my husband was United States minister to China, I had special opportunity of becoming acquainted with her. I admired her greatly. She was truly a remarkable woman."

Finances in Confusion.

PEKING, Tuesday, October 13.—The appeal by the Great Council to the viceroys and governors for advice on the subject of a standard monetary unit and coin for the empire, has resulted in the adoption by edict of the standard money unit, and a coin of the value of a half-mael to be the coin of general circulation. The edict goes over the difficulties of changing the money of China from a system of weight to a coin system, the former being ruled on by officials and bankers to enable them to squeeze from commerce a large part of their revenue. The edict says that the Chinese finances are now in confusion.

BOTH TO RESTATE

Japan Took Initiative in Proposition, Now Considered by State Department.

WASHINGTON, November 16.—Japan, it developed to-day, took the initiative and made to the State Department a proposition, now under consideration, in reference to an incident which led to official statements denying that there was any friction between the two countries.

From guarded statements made in responsible quarters to-day, the question is believed to be broader than at first thought. One feature, it is understood, contemplates a restatement by both the United States and Japan regarding their attitude towards China, not Manchuria alone.

Not that there is anything to add to what already has been said, it is explained, but simply a reaffirmation of

Quiet Prevails.

GUTHRIE, OKLA., November 16.—Quiet prevailed here shortly this afternoon after officers of the Oklahoma state emphatically that there is no truth in the reports circulated of any impending race war here. Quiet prevails to-day, and no further trouble is expected.

Strike Large Vein.

(Special to The Times-Dispatch.)

SUFFOLK, VA., to-day the water in an artesian vein, which is expected, will supply the entire town with water, which is now secured from a nearby lake. The well flows 7,000 gallons per hour. While the artesian water will be utilized for everyday use, the lake connection will be maintained for fire fighting.

Negro Shot Five Times.

(Special to The Times-Dispatch.)

WILSON, N. C., November 16.—Tonight an unknown negro was shot five times in the abdomen in the outskirts of the city by another negro, said to be George Ruffin. The wounded man is at a hospital here, but is not expected to recover. His assailant escaped, and has not yet been apprehended. The shooting occurred over a woman.

B. & O. Elects Directors.

BALTIMORE, MD., November 16.—At the annual meeting of the stockholders of the Baltimore & Ohio Railroad Company, held in this city to-day, the outgoing board of directors were re-elected, with the exception of Charles Steele, who resigned. L. F. Loree was elected in his place. The annual report was submitted and approved.

Marriage License.

WASHINGTON, D. C., November 16.—Marriage licenses have been issued to the following: Robert E. Wayland, of Connecticut, and Helen G. Munn, of this city; James A. Brasher, of Graham, Va., and Miss Alice M. Brasher, of Lynchburg, Va.

London; Sarah Bernhardt, in Paris, and Morrison's "Faust," in this country, the dramatic version will be fully represented. The production, in the present season, is the most elaborate and complete ever given in this country, not alone in scenery, but in company, properties, costumes, and startling electric and magical effects. For the first time in its long stage career "Faust" will add magic to mystery in the weird Broken scene, and also in the sublime spectacle, the Apotheosis. The company, to be seen in its presentation here at the Academy Thursday, matinee and night, contains Miss Rosabel Morrison and other well-known actors and actresses.

"Marrying Mary."

Flourace Gear, Jules Murry's singing comedienne, who, supported by a large touring company, will be seen in "Marrying Mary" at the Academy on Saturday, matinee and night, has an exuberant personality. Perhaps the most characteristic individual part of her work is that in which she has given her invention full swing and allowed her humor to run riot in mad pranks at will. In some of her scenes as Mary Montgomery, she seems enveloped in an atmosphere instinct with gaiety and folly, which burlesques the natural and only the extravagant is normal. Again she is finer, stronger, sadder. Nothing in her work is peculiar or superficial. There are times when it has a touch of the pathetic.

"The Boys of Company B."

A feature of the new "Boys of Company B" in which Paul Gilmore is being starred this season, is the music. Mr. Gilmore, very much himself, has always had a good deal of music in his plays, and has insisted upon making a feature of the singing in "Company B."

Mr. Gilmore the other evening after the second act of the play: "Did you hear the triple encore given to that music? It was every night. I tell you it's all right to have good lines and good situations in a piece, but if you don't have a good deal of music, it's not a good piece. I shall ask two more to be added to serve upon it, so that the full membership will be as follows:

Professor L. H. Bailey, New York State College of Agriculture, Ithaca, N. Y.; Chairman, Henry Wallace, Wallace's Farmer, Des Moines, Iowa; K. V. L. Butterfield, president Massachusetts Agricultural College, Amherst, Mass.; Gifford Pinchot, United States Forest Service, Washington, D. C.; Walter E. Dill, of the University of California, Berkeley, Cal.; and Charles S. Barrett, Union City, Ga., and William A. Beard, Sacramento, Cal."

"Again thanking you, and with all good wishes for your success in this great and important work, believe me, very sincerely yours,

(Signed) "THEODORE ROOSEVELT."

Mr. Bailey's reply to the President follows:

"The Commission on Country Life is much gratified that its efforts have met with your approval. The public interest in the subject seems to be widespread and to be constantly growing, as the purpose of the work becomes known. Discussion of the inquiry that the commission is making for the people themselves is the best means of arriving at a clear understanding of what the country life problems really are.
